

Summer Program

Discovery Zone

BrightPath offers a unique, fun, skill-building summer program with exciting weekly themes that allow children to explore and discover a wide variety of topics and ideas. This all-inclusive program, run by qualified, trained and certified educators, will include a host of special activities and/or field trips.

Preschool - Kinder

Week 1 - Canada's Wonders

This week we will explore the show stopping monuments of nature that define the landscape of our incredible country. We will journey through the seven wonders of Canada, including the Sleeping Giant in Thunder Bay and the magnificent Niagara Falls.

Week 2 - S.T.E.A.M

This week we will learn all about balancing skills using rocks, blocks, and our bodies, while exploring the concept of stability. The rock balancing art of Peter Reidel will be a focus, leading to the creation of our own Inukshuks! We will conclude our week by participating in a group tower building project, putting our knowledge of stability to the test.

Week 3 - Ready, Set, GROW!

It is time to show how green our thumbs are for this week! We will explore the world of gardening, actively discovering new plants and investigating the differences among beautiful blooms. Of course, every true gardener must learn the skills of patience and care when planting and nurturing their new growths!

Week 4 - Space

Join us for an out of this world experience as we discover the magic beyond planet Earth! We will explore our solar system, our night sky, and the technology that allows us this opportunity. We will integrate hands on science experimentation with our own imaginations to create a trip to the stars!

Week 5 - Symphony of the 5 Senses

This week will inspire an appreciation for the workings of each of our five amazing senses. Your children will be immersed in tangible experiences that connects them sense by sense to the world around them. We will end the week by creating a collaborative "sensory stew"!

Week 6 - Art Attack

We will spend the week exploring the creative processes of five renowned painters from across time. Each day will focus on a different artist, including Emily Carr, Henri Matisse, and Wassily Kandinsky, among others! Your children will get first hand experience with the mediums and processes celebrated by these artists. We end the week with an art display of your little ones' self-portraits made entirely of elements from nature!

Week 7 - Animal Planet

Spend the week learning about some of Canada's incredible creatures and how they survive in one of the world's most extraordinary environments, the Arctic. We wonder how you will measure up against a Polar Bear? Is a Narwhal really an underwater unicorn? Let's explore the qualities of these amazing animals that makes it possible for them to live in such an amazing place!

Week 8 - Hidden World of the Rainforest

Let's explore the magic of the Tropical Rainforests together! We will explore the diverse range of animals that live in each layer of the Rainforest; the canopy, the emergent layer, the understory, and the forest floor. Let's pretend to be there during the day and the night and hear the differences!

Week 9 - Dino-Tastic/ Dinoventures

Join us as we dig into the past to discover creatures that first roamed the earth billions of years ago... dinosaurs. We will explore the different qualities of these large and small historical beasts and investigate how fossils are relics storytelling the past!

Week 10 - Fun at The Fair

Let's explore the sounds, sights, and tastes that the fair has in store for us this week. We'll explore the games and rides that fairs provide, and even take part in some acrobatic moves! Concluding with the creation of our own BrightPath Fair!

Summer Program

Discovery Zone

School Age

Week 1 - Canada Invents!

Canadians have left their mark on history with their "eh" game creations. This week will be about exploring the minds of Canadian inventors and re-creating some of their greatest inventions, like the telephone, lacrosse, basketball, and more

Week 2 - On Your Mark, Get Set, Grow!

We will spend this week learning about the fundamentals of the growing process, from seed germination right to the production of fresh fruits and vegetables. Let's sharpen our green thumbs for this week and create our own classroom garden. It will be exciting to see what gardening skills our young learners will take home to you!

Week 3 - Classroom Camping

Summer is a time for experiencing the great outdoors! What better way than camping? Our classrooms will be transformed into a little piece of rugged wilderness, while we tent by the river and enjoy some fire-side snacks!

Week 4 - S.T.E.A.M

Science, Technology, Engineering, Art and Math will be our theme for this special week. Let's put on our creative and analytical hats and explore these disciplines together. We will collaborate on experiments, creative innovative structures, and explore the arts!

Week 5 - Masterchef Jr.

Let's put on our chef hats while we learn about cooking, but also nutrition and science! Teamwork and creativity will be our big focus in the kitchen as we jump in and get hands-on with food. From family recipes to food around the world, from appetizers to desserts, we get cooking. We will share our culinary skills at the end of the week with a family treat feast!

Week 6 - Futuristic Fun

This week is all about using our imagination and creative drive to build our own unique robots. We want to challenge our inventors of tomorrow to think outside the box and create a robot with the mechanics, purpose and creative design they deem important. It will be a time to share ideas, build camaraderie, and heighten confidence as we delve into the not so distant world of robots.

Week 7 - Tardis Time Travellers

This week will be all about fantasy and adventure as we hop on the Tardis and travel through time and space. One journey may send us on a noble quest to explore Medieval Times. Another journey may send us off pioneering in a wagon to explore the Canadian frontier. Time travel is not for the faint of heart so get ready for excitement!

Week 8 - Community Connections

We will learn about the community services available right outside their front door. Each morning, a riddle will need to be solved identifying a specific agency within their community which will be the theme for the day. Our final day will unite them in a community scavenger hunt, requiring a group selfie in front of each agency and a small memento to bring back!

Week 9 - Beach Party

Get ready for some sunny summer fun! Our school age children will "shore" love this beach party, as we explore all things related to sunshine, seashells and sandcastles. Big Foot flip flops, water balloon pinatas, and beach bucket challenges are some of our activities. We will end the week with a beach side bash, complete with a photo booth set up!

Week 10 - BrightPath's Got Talent

This week we're hosting "BrightPath's Got Talent". Whether it is performing on stage, or a behind the scenes talent, everyone has a skill to showcase. Design tickets, programs, scenery and props to showcase you and your friend's talents. This is your show, so make it amazing and let your talent shine this week!
