

Covid-19 Update: May 7, 2020

Dear BrightPath Parents,

Peel Inclusion Resource Services (PIRS) would like to continue to provide families with access to professional resources to help them in supporting their child during this difficult time.

As such, they are extending access to families for a child specific brief consultation during the closure of child care. Attached you will find an information sheet from PIRS that explains more about child specific brief consultation including who can access the service and how families can connect with PIRS to initiate the request for support.
